

Climate Change Session

Keynote Speaker
Sheila Healy

GOVERNMENT OFFICE
FOR THE WEST MIDLANDS

GOWM

Regional Director

“Human activity does in large part contribute to climate change”

(Consensus from the G8 leaders at the Gleneagles summit)

“Climate change is the most severe problem we are facing today - more serious even than the threat of terrorism”

(Professor Sir David King,
UK Government’s Chief Scientific
Advisor, 2004)

“None of the papers disagreed with the consensus position... Human activities ... are modifying the concentration of atmospheric greenhouse gas concentrations”

(Naomi Oreskes, *Science*, December 2004)

EPIC

(Eliot Park Innovation Centre,
Nuneaton)

“Far more needs to be done. The UK will continue to show leadership but cannot solve this problem alone”

(DTI, Energy White Paper, 2003)
